# SANTA BARBARA AIRBUS

How to easily and safely travel with us

## SAFETY IS #1

Safety is one of our core values at Santa Barbara Airbus. We believe it is our responsibility to provide safe, reliable, and efficient transportation to each of our customers. We also believe that safety means providing clean and well maintained vehicles. Your safety is our priority.

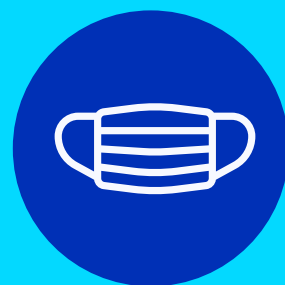

## CLEANLINESS

We have always prided ourselves on providing clean and well maintained vehicles. Now more than ever this is our focus. **Each vehicle goes through a rigorous cleaning process including a fogging sanitization and wipe down of all high touch areas.** Our office is cleaned daily, as well as wiped down after each bus departs the station.

## WEARING YOUR MASK

We ask that each passenger wear their mask at all times, unless eating or drinking. Please wear your mask while waiting for the bus to arrive, when at your seat inside the bus and while waiting for luggage after your trip concludes. *Please be respectful to other passengers and wear your mask even if you are on the phone!*

## REDUCED CAPACITY

To ensure we are providing a safe and comfortable experience we have reduced the capacity on each bus. Single travelers will get a row of seats to themselves, parties traveling together will sit together. We ask you sit next to the window to allow more space for passenger walking through the aisle. Please pre-book your ticket to guarantee a spot on the bus.

## ONBOARD SAFETY

Hand sanitizer is available on each bus, and in the office. Please utilize as needed throughout your trip. Our onboard ventilation system will be pulling outside air in during each trip, and refreshes inside cabin air every three minutes. This, coupled with mask wearing, provides a safe ride on the motorcoach
